--	---	--	--

The diagram shows an exploded view of a rear axle differential assembly. The main component is the differential housing (1). It features two pinion shafts (5) and two axle shafts (8). The pinion shafts are connected to the differential pinions (6) and are secured with pinion nuts (7) and pinion washers (3). The axle shafts are secured with axle nuts (2) and axle washers (4). The assembly also includes differential bushings (5) and axle mount bushings (9). The entire assembly is shown in a perspective view, with the components labeled with circled numbers 1 through 9.
